**DEALER BENEFITS**

- Officially Licensed
- Spektrum Smart Technology
- Full line of option parts
- Excellent margin!

## COMPLETION ITEMS

### 40+ mph Setup

SPMXPS3	Smart Powerstage Bundle 3S
SPMXCA508	Adapter: IC5 Battery / IC3 Device

### 50+ mph Setup

SPMX50004S100H5	14.8V 5000mAh 4S 100C Smart Hardcase LiPo Battery: IC5	LOS03028 T2
SPMXC1070	S150 AC/DC Smart Charger, 1x50W	
SPMXCA508	Adapter: IC5 Battery / IC3 Device	

## SPECIFICATIONS

Length: 24.3 in (617.2mm)  
 Width: 13.25 in (336.5mm)  
 Wheel Base: 14.75 in (374.6mm)  
 Height: 8 in (203.2mm)  
 Weight: Varies w/batteries  
 Chassis: 3mm, 6061 T-6 Aluminum  
 Suspension: Independent  
 Shock: 12mm Bore, Oil Filled Coil-Over Spring  
 Drivetrain: 4WD  
 Differential: Bevel Gear

## Extended Chassis

Product Length: 24.3 in (617.2mm) / Wheel Base: 14.75 in (374.6mm)

Product Length: 21.1" (535mm) / Wheel Base: 13.1" (332.7mm)

## The Lasernut Story

This #48 Lasernut Racing U4 racer is one of the first all-independent suspension four-wheel drive rock racers in the world. Named after Lasernut, the leader in laser cutting, bending, and welding for the off-road industry, champion driver and Lasernut founder, Cody Waggoner, has taken his rock championship credentials to the infamous Hammers Trails where he and the "spider-like" mobility of the #48 have made the Lasernut team one of the best when the trail gets tough. Few can perform like Lasernut in the shop or dominate in the rocks like the Lasernut Racing U4 #48.

Cody Waggoner  
President, Lasernut
